Are my funds safe?

About Windsor Brokers · https://windsorbrokers.com/knowledge-base/about-windsor-brokers/are-my-funds-safe/

Windsor Brokers is taking all necessary steps to ensure that clients' funds are safe. All client funds are kept in segregated bank accounts meaning they are 100% separated from the company's own funds so in the case of bankruptcy clients' funds are not affected. Furthermore, the company invests in an additional layer of security to safeguard our clients by having an insurance policy that covers up to $5,000,000! This insurance is an arrangement by which a company aims to safeguard its liabilities against clients by providing a coverage against errors, omissions, negligence, fraud and various other risks that may lead to financial loss. More information is available on our website .
