How are loyalty points earned?

Loyalty Rewards · https://windsorbrokers.com/knowledge-base/loyalty-rewards/how-are-loyalty-points-earned/

Loyalty points are earned through a variety of predefined activities that reward your engagement and trading performance. The primary ways to earn points include:

1. Trading Volume: Points are awarded based on the number of closed lots you trade. The more you trade, the more points you accumulate. Your Loyalty Status determines the number of points you earn per lot, with higher statuses offering more points.
2. Interest on Equity: By participating in our Interest Program, you can earn points on your net equity (equity minus credit). The interest rate varies depending on your Loyalty Status, with higher statuses earning a higher percentage yield.

Here is a detailed breakdown of how points are earned based on your Loyalty Status:

WB Loyalty Status	Status Requirement	Description & Benefits	Minimum Lots Threshold	Loyalty Points per Lot	Annual Interest Rate Yield
Silver	None	Default Status	0	0.2	0%
Gold	Close the minimum lots threshold for Gold Status	Increased point value per lot traded / higher interest rate	20	0.40	0.40%
Platinum	Close the minimum lots threshold for Platinum Status	Increased point value per lot traded / higher interest rate	500	0.60	1.20%
Diamond	Close the minimum lots threshold for Diamond Status	Increased point value per lot traded / higher interest rate	5,000	1.00	2.00%

For example, if you are a Gold status client, you earn 0.4 points for every closed lot. If you close 50 lots in a month, you will accumulate 20 points (50 x 0.4 = 20). Additionally, if you have activated the

Interest Program, you will earn interest points on your net equity, further boosting your total points.
