What determines the cash value of my Loyalty points?

Loyalty Rewards · https://windsorbrokers.com/knowledge-base/loyalty-rewards/what-determines-the-cash-value-of-my-loyalty-points/

The cash value of your Loyalty points is determined by the number of points you choose to redeem. Points can be exchanged directly for balance in your trading account, with the value per point increasing when you redeem more points. Here is the point conversion value breakdown:

Number of Redeemable Points	Value Per Point (USD)
10 - 99.99	$1
100 - 999.99	$1.2
1,000 - 9,999.99	$1.5
10,000+	$2

This tiered structure rewards you for accumulating more points, offering higher cash values for larger redemptions.

For example, if you have accumulated 326 points, you can redeem them for $391.20 (326 points x $1.20 per point). Conversely, if you have 1,200 points, you can redeem them for $1,800 (1,200 points x $1.50 per point).
