The $60K Deposit Bonus is a loyalty-driven reward system that boosts your trading power every time you deposit. Your Loyalty Tier determines two things: your bonus match percentage and your total bonus capacity, which can grow all the way up to $60,000 at Diamond Status.

Every eligible deposit of $100 or more instantly receives a bonus match based on your tier, and you can deposit multiple times until you reach your $10,000 active bonus. As you trade, you earn loyalty points that help you climb the tiers and unlock higher match rates and greater total bonus capacity.
