How can I receive news on the MT5?

Trading Platform · https://windsorbrokers.com/knowledge-base/trading-platform/how-can-i-receive-news-on-the-mt5/

To receive news updates on the MetaTrader 5 (MT5) platform, follow these steps:

Enable News:

• Click on ‘Tools’ in the top menu.

• Select ‘Options’ from the dropdown menu.

• In the ‘Options’ window, go to the ‘Server’ tab. You can find your server on your WB Portal or App under Account Details.

• Tick the checkbox next to ‘Enable News’ to allow news updates

View News:

• Open the ‘Toolbox’ window by pressing Ctrl+T or by selecting 'View' > 'Toolbox' from the menu.

• Navigate to the ‘News’ tab within the ‘Toolbox’ window. Here, you will see a list of incoming news items, including their time of arrival, topic, and category

Reading News:

• Double-click on any news item to read the full content.

• You can also right-click on a news item to copy it to the clipboard or to customize the news categories display

Customizing News Feeds:

• Some brokers allow you to customize the news feed by selecting specific categories or sources. Check with your broker if this feature is available
