When does slippage occur?

Trading · https://windsorbrokers.com/knowledge-base/trading/when-does-slippage-occur/

Slippage more often occurs during periods of illiquidity or higher volatility (for example due to news announcements, economic events and market openings and other factors) making an order at a specific price impossible to execute. In this case, we confirm that your order will be executed at the next best available price.

You have the choice not to place any Stop Orders during volatile market conditions and to trade normally.

More information is available in 'Trading Conditions' under 'Legal Documents' on the Portal or on our website
