Providers earn a profit-sharing fee, known as the Performance Fee. This fee is determined by the Providers and paid by the Followers only when the subscription yields a profitable trading result. The performance fee is calculated and paid out to providers on a weekly basis. Specifically, the payout will occur every Saturday at 00:00. (Note: if a Follower decides to withdraw funds or unsubscribe before the payout day, the fees will be calculated up to that point and the payout will occur instantly.)
